Making an Impact II (Environmental impact assessment) Paperback July 1, by William Sheate (Author) Be the first to review this item. See all formats and editions Hide other formats and editions. Price New from Used from Paperback, July 1, "Please retry" Author: William Sheate. Environmental Impact Assessment (EIA) is the process of examining the anticipated environmental effects of a proposed project - from consideration of environmental aspects at design stage, through consultation and preparation of an Environmental Impact Assessment Report (EIAR), evaluation of the EIAR by a competent authority, the subsequent. Note: Citations are based on reference standards. However, formatting rules can vary widely between applications and fields of interest or study. The specific requirements or preferences of your reviewing publisher, classroom teacher, institution or organization should be applied. An environmental assessment (EA) is an environmental analysis prepared pursuant to the National Environmental Policy Act to determine whether a federal action would significantly affect the environment and thus require a more detailed Environmental Impact Statement (EIS).

The principal tools of NEPA for assessing impacts and planning actions are the environmental impact assessment (EIA) and the environmental impact statement (EIS). Environmental Impact Assessment (EIA) is a term used to describe the total process of assessing the environmental effects of a development project. An Environmental Statement (ES) is used to describe the written material submitted to.
